## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-10 and 28-33 are allowed.

The following is an examiner's statement of reasons for allowance:

- a) Applicant's arguments of March 15, 2007, Pages 8-9, have been persuasive.
- b) The allowability of the claims resides, at least in part, that the closest prior art of record **Sandstrom et al. (US 6,883,158 B1)** does not disclose or suggest, alone or in combination the step of:

As for independent claims 1, **determining a backward modification data according to the material and the device data, and the first process data; modifying the first manufacturing model according to the backward modification data to obtain a second manufacturing model; and performing a second process run of a second mask as defined by the second manufacturing model, in combination with the other elements and features of the claimed invention.**

As for independent claim 28, **determining a backward modification data according to the material, the device, and the first process data; and modifying the first manufacturing model according to the backward modification data to obtain a second manufacturing model; and issuing a process command, which directs a tool to process a second mask according to the second manufacturing model, in combination with the other elements and features of the claimed invention.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
